## ON SIGHT RULE - R8.2

Motormen must operate their trains on sight at all times including while under signal protection. The term on sight means within range of vision. Changes in the range of vision must be anticipated. (See also 8.10). R8.10.1 and 2 are on reverse side of card.

**Turn this card in to terminal clerk upon completion of run.**

T 3009 REV. 8/77

R8.10.1 - Motormen must look ahead and be constantly alert for any condition which may cause injury or damage and be ready to bring their train to an immediate stop.

R8.10.2 - Motormen must keep at a safe distance and must operate at a speed which will enable a safe stop should a train ahead make a sudden stop. Collision will not be excused.
