Ride Our Demonstration Railroad - Steam Trains, Streetcars, Interurbans

RELIVING THE PAST AT UNION

Remember the mighty sound of the steam locomotive, the "Clang, Clang," of the streetcar, the quiet, breezy ride through the countryside in an electric interurban car?

These sights and sounds have almost completely disappeared from the American scene. Yet, at the Illinois Railway Museum, you can still ride into yesteryear behind a real steam locomotive, go for a streetcar ride or sit back and enjoy the comfort and quiet speed of a heavy electric interurban car.

The Museum's historic collection of railroad equipment is comprised of over 140 cars and locomotives. This comprehensive array of equipment includes steam locomotives, gas-electric cars, steam road cars, a complete silver Zephyr streamliner, interurban cars, elevated cars and streetcars. The Museum has an extensive collection of Chicago streetcars. There are even examples of operating electric trolley coaches, the kind typical of those that replaced the streetcars in many American cities. Much of this equipment has been completely or partially restored and is operated over the Museum's 1½ mile long demonstration railroad for your fun and enjoyment.

Visitors may view equipment on display; however, due to safety requirements, we do not allow individuals to climb on cars and engines. Most of our cars are not open for interior inspection with the exception of those in operation.
