CENTRAL ELECTRIC RAILFANS' ASSOCIATION

ď,

1240 EDISON BUILDING

General Information & Application Sheet
Revised to Dec. 1, 1940

CHICAGO, ILLINOIS

During recent years there has been an increasing interest among the public in the operation and functions of electric railways giving urban, suburban and interurban service as well as those on which trunk line traffic is drawn with electric motive power. People have become aware that the study of the history, equipment and means of doing business of transit railways is a fascinating subject and makes a very satisfying hobby whose many forms include inspection trips, photograph collecting, model building and investigation of the subjects of timetables, train operation, car construction and maintenance, track, signals, power, traffic, regulation and history, to name but a few of the intricacies which combine to make railroading one of the most enjoyable forms of human activity.

A group of dyed-in-the-wool railfans in the summer of 1938 banded together to form the Central Electric Railfans! Association to sponsor inspection trips, meetings and publish bulletins and to engage in what other activities as would be of interest to such folks. The bulletins act as a permanent record of some of the properties on which CERA has made inspection trips as well as of many other roads of the past and present, and proved of value not only to local enthusiasts but to railfans in all parts of the country, so that a separate class of membership, Subscribing, was established for those who simply wish the bulletins.

Such are the functions of CERA, with one important addition: CERA will by its actions and by the attitude of its members endeavor to increase FUBLIC GOOD WILL TOWARD AND INTEREST IN ELECTRIC RAILWAYS.

Government: Control of the activities and policies of CERA is by popular vote of the Active members, who elect the Board of Directors under the constitution of the club to administer its affairs. CERA is incorporated, not-for-profit, under the Laws of the State of Illinois, and consequently is not directly affiliated with any other club, association, operating or supply company, altho persons connected with such are welcome in CERA. The only absolute requirement for membership is Bona Fide interest in Electric Railways.

Membership Requirements & Fees:

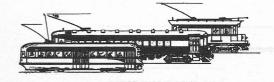

ACTIVE MEMBERSHIP: Formal application, examination as to experience and knowledge of railfan matters, election by previous Active members and annual fee of \$1.50, entitle holder to share in government of CERA, covers notice of trips and meetings and a share of the general administrative expenses, and includes a year's subscription to the bulletins. Railfans in the Chicago area intending to participate in meetings and trips regularly must obtain ACTIVE membership; others may obtain Subscribing membership. Visitors are welcome at meetings, without obligation.

SUBSCRIBING MEMBERSHIP: Application passed by the Board and annual fee of \$1.00 entitles holder to a year's subscription to the bulletins and covers a share of the general administrative expenses of CERA. No definite number of publications is guaranteed; the funds from this class of membership are completely spent for the purpose of issuing bulletins and the number thus depends on the number of subscribers and on the nature of each bulletin. During the 1939 year there were nine publications; during the 1940 year, 12 bulletins and 4 supplements.

ALL MEMBERSHIPS RUN CONCURRENTLY, beginning on December 1 and ending November 30 following, regardless of time of year application is filed. This arrangement greatly reduces the clerical work and enables men joining at any time during the year to get all the bulletins issued since the start of that year. Collections of CERA are entirely for its own support and, since it is a non-profit group, these are set at the absolute minimum which CERA reserves the right to alter in future years should the members find it necessary. Also, memberships will terminate promptly on the expiration date unless duly renewed.

Remittances, inquiries for additional copies of this circular or for other information pertaining to CERA may be addressed to:
